Upon the notification and validation, we will undertake the following: If there is a defect in the manufacture of the Product, at our sole option, we will either repair, replace or refund the purchase price of the originally installed Product found to be defective (in the event that we choose to replace the Product, we will only be responsible for providing materials, and will not be responsible for the cost of labor to install new Product). - "Never Clogs, Never Overflows" - Our promise that for the 5-year duration of the Standard Gutter Guard product warranty, so long as the product has been installed in the manner specified by Rain Gutter Pros LLC, your gutters will not become clogged and overflow because it fills with ordinary debris that collects in gutters such as leaves, twigs, needles, or seeds. Our product is designed to eliminate entry of this sort of debris that can otherwise create blockages in the gutter or flow to the downspout and cause damming and eventual gutter overflow.
- There are no warranties on this Product other than as set forth in this Warranty. We are not liable to you for a breach of any other written or oral express warranties, such as those, if any, given to you by dealers, contractors, applicators, or distributors of the Product.

- This Warranty gives you specific legal rights. You may also have other rights which vary from state to state. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, AND SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

CARE AND MAINENANCE, Customer Responsibilities

Standard Gutter Guard is one of the most effective gutter guards on the market. Like most cases, normal debris will not easily blow off the gutter guard in the next gentle breeze. Depending on the surrounding proximity of the foliage around the structure, regular maintenance to ensure optimal function is required. The maintenance includes, but may not be limited to, blowing, hosing, or brushing off the gutter guards. If debris can collect on your roof, it can collect on the gutter guards. If debris builds up to a degree that water is not able to reach the gutter, it will greatly impede the effectiveness of the system.
