

## HOW TO CLEAN YOUR TENNIS COURT

### Proper Tennis Court Maintenance:

- Clean your court regularly. Once a month is suggested.
- Watch for evidence of mold or mildew. (I)
- Remove foreign matter. Leaves and pine needles not only can stain your court, but are also breeding grounds for mold and mildew.
- Use proper equipment (II)
- Do not use excessive pressure.(III)

### Maintenance Tips:

- (I) To remove mold, fungus & other organisms on the acrylic surface use: 2 parts household bleach, mixed with 1 part water. Use this solution to treat affected areas. Scrub gently with soft bristled brush and rinse thoroughly after a few minutes.
- (II) Surface Cleaners or Water Brooms are ideal for tennis court cleaning as they do not directly apply pressure to the surface
- (III) 70 PSI is the recommended pressure that should be applied to a sport court.
